

NATURAL SCIENCE WITH SPECIALISATION NATURAL SCIENCE

Since IEGS opened twenty five years ago, excellence in the natural sciences has been a cornerstone of the academic programmes we offer. You will leave IEGS having been challenged intellectually and practically by subject specialisms in the form of extended courses in physics, chemistry and biology, as well as in advanced mathematics. Both the Maths and Science departments have established links with a range of

universities, research institutions and fieldwork centres. IEGS students have used these to set up various exciting opportunities and summer placements. We have four science laboratories, two wet and two dry, providing purpose-built teaching spaces. If you are planning a career in medicine, veterinary science or engineering, or if you are seeking a holistic scientific education, this is the programme for you.

Core Gymnasium (1050 points)

Course	Points	Year One	Year Two	Year Three
English Level 1	100	100		
English Level 2	100		100	
History Level 1b	100			100
Physical Education and Health Level 1	100	50	50
